Blood Enhancement

Direct Sensitivity Comparison of the Fluorescein and Luminol Bloodstain Enhancement Techniques . . . 49-3 261

Enhancement of Fingerprints in Blood – Part 1: The Optimization of Amido Black 50-5 470

Identification of Blood Prints on Fabric Using Amido Black and Digital Enhancement . . . 50-1 20

Bloodstain Pattern Analysis

Considering the Target Surface in Bloodstain Pattern Analysis: An Unusual Case of Blood Pooling 49-5 485

Book Reviews

Crime Scene Methods of Forensic Detection 50-1 50
Current Methods in Forensic Gunshot Residue Analysis . .50-6 597
Forensic Dentistry 49-5 505
Handwriting Identification: Facts and Fundamentals 50-2 141
Practical Fire and Arson Investigation 49-5 509
Speaking as an Expert 49-5 507
Techniques in Crime Scene Investigation, Sixth Edition .50-6 595

Casting

Elmer's® Glue-All: A Low Cost Tool Mark Casting Medium 49-2 117
Origin and Formulation of Prill Sulphur 49-1 1

Court Presentations

To-scale Crime Scene Models: A Great Visual Aid for the Jury 49-2 130

Crime Scene

Accuracy of Measuring Devices – Particularly Plastic Rules 50-2 129
Considering the Target Surface in Bloodstain Pattern Analysis: An Unusual Case of Blood Pooling 49-5 485
Contrast from the Past 49-9 589
Direct Sensitivity Comparison of the Fluorescein and Luminol Bloodstain Enhancement Techniques . . .49-3 261
Elbow Print Identification 50-2 132
Elmer's® Glue-All: A Low Cost Tool Mark Casting Medium 49-2 117
Fingerprints on a Banana Leaf 50-5 441
Hit and Run Accident Solved by a Compilation of Evidence 50-4 351
Identification of Horse Hoof Impressions 50-6 563
New Sprays for the Development of Latent Fingerprints 49-5 499
Origin and Formulation of Prill Sulphur 49-1 1
To-scale Crime Scene Models: A Great Visual Aid for the Jury 49-2 130
Unusual Case Involving the Individualization of Fabric Impressions Made by a Sock-clad Foot, An 50-5 447
Which Was First – Fingerprint or Blood? 50-4 344

Cyanoacrylate Fuming

Cyanoacrylate Fuming: Accelerating by Heat within a Vacuum 49-4 377

Digital Enhancement

Identification of Blood Prints on Fabric Using Amido Black and Digital Enhancement . . 50-1 20

DNA Analysis

Further Study to Investigate the Effect of Fingerprint Enhancement Techniques on the DNA Analysis of Bloodstains, A 49-4 357
Recording Fingerprints on Cartridge Cases by 3D Laser Topography 50-3 271

Document Examination

Document Dating via the Internet 49-2 114

Evidence Marking

Simple Solution to Preserving Identification Marks on Evidence Processed for Latent Prints 49-6 583

Fabric Impressions

Unusual Case Involving the Individualization of Fabric Impressions Made by a Sock-clad Foot, An 50-5 447

Fingerprints

Accuracy of Measuring Devices – Particularly Plastic Rules 50-2 12
Appraisal of the Porphyrin Compound $(TTP)Sn(OH)_2$ as a Latent Fingerprint Reagent 49-3 269
Black Powder Method to Process Duct Tape 49-4 347
Comparative Study for the Evaluation of Two Solvents for Use in Ninhydrin Processing of Latent Print Evidence, A 50-5 462

Comparison of Different Physical Developer Systems and Acid Pre-treatments and Their Effects on Developing Latent Prints, A 50-4 363
Deep Red to Near Infrafred (NIR) Fluorescence of Gentian Violet-treated Latent Prints 50-1 33
Detection and Enhancement of Latent Fingerprints on Polymer Banknotes: A Preliminary Study 49-6 594
Developing and Identifying a Latent Print Recovered from a Piece of Latex Glove Using Ninhydrin-heptane Carrier (Case 1)
Developing Latent Prints on Household Rubber Gloves Using Ninhydrin-heptane Carrier after Superglue Fuming (Case 2) 50-5 443
Developing Latent Prints on the Adhesive Side of Black Electrical Tape 49-2 127
Development and Enhancement of Latent Prints on Firearms by Vacuum and Atmospheric Cyanoacrylate Fuming 50-6 572
Development of Latent Fingerprints on Dark Colored Sticky Surfaces Using Liqui-Drox 50-4 367
Documentation of Latent Print Comparisons 50-2 119
Enhancement of Fingerprints in Blood – Part 1: The Optimization of Amido Black 50-5 470
Fingerprints on a Banana Leaf 50-5 441
Fluorescence Detection of Latent Fingerprints: Direct Entry to AFIS 49-1 11
Forensic Individualization of Images Using Quality and Quantity of Information 49-3 246
Further Study to Investigate the Effect of Fingerprint Enhancement Techniques on the DNA Analysis of Bloodstains, A 49-4 357
Getting the Most from Fingerprint Powders 49-5 494
Identification of Blood Prints on Fabric Using Amido Black and Digital Enhancement ... 50-1 20
Improving Contrast in Photographs of Latent Fingerprints on Bottles 50-1 8
Inked Major Case Prints 49-5 468
Laterally Reversed 50-2 138
Magnetic Fingerprint Powder Method on Firearms and Metal Cartridges 49-5 479
Mushroom Prints 49-1 7
New Sprays for the Development of Latent Fingerprints 49-5 499
Obtaining Identifiable Fingerprints from Mummified Hands: Two Quick and Accurate Methods 50-1 13
Operational Trial of Two Non-ozone Depleting Ninydrin Formulations for Latent Print Detection, An 49-4 388
People v. Jennings: A Signficant Case for Fingerprint Science in America 49-4 455
Physico-chemical Treatment for Fingerprint Identification ... 50-3 264
Recording Fingerprints on Cartridge Cases by 3D Laser Topography 50-3 271
Search for Safe, Non-running Solvents: A Brief History, The 50-5 455
Substitute Ardrox Formula ... 49-2 134
Technique for Processing Carbonless Documents for Latent Prints 49-2 122
Use of Automated Fingerprint Identification Systems to Process, Search and Identify Palm Prints and Latent Palm Marks 49-1 18
Use of Ninhydrin in the Recovery of Latent Prints on Evidence Involving Adhesive Surfaces Attached to Porous Surfaces 50-6 581
Which Was First – Fingerprint or Blood? 50-4 344

Firearms

Three Holes – Four Bullets: Must Be That New Math! 50-4 339

Footwear Examination

Four Basic Components of a Successful Footwear Examination 49-1 37

Moving Towards Consensus: The First Draft of an Evaluative Instrumental Grid to Interpret Shoe Wear Patterns 49-2 142
Origin and Formulation of Prill Sulphur 49-1 1
Schallamach Pattern on Shoe Outsole Acknowledged by Court in Footwear Identification 50-1 1

Forensic Art

Composite Interview, The 50-3 251
Special Case in Three-dimensional Bone Reconstruction of the Human Skull 50-6 549

Guest Editorial

Composite Interview, The 50-3 251
